## **DETAILED ACTION**

### ***Claim Rejections - 35 USC § 112***

1. Claims 1-3 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In line 3 of each of claims 1 and 3, it is unclear what previous element is being defined as “comprising”.

In claim 1, line 22, “having and having” is unclear.

In claim 1, line 37, “said support” lacks antecedent basis in the claim.

In claim 3, line 4, “as” is unclear within the context of the claim.

In claim 3, lines 7 and 9, “thereof” is unclear with respect to the previous element(s) referred to.

### ***Claim Rejections - 35 USC § 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claim 3 is rejected under 35 U.S.C. 103(a) as being unpatentable over Steelman in view of Betz. Steelman discloses all structure of the claimed holder except the ability to pivot rearward to a horizontal position. Betz teaches that it is known to make a rotating spare tire carrier such that it can rotate into a horizontal position to prevent interference with a tailgate or other rear structure on a vehicle which also rotates into a nearly horizontal position. It would

have been obvious to make the holder of Steelman such that it can rotate into a horizontal position as taught by Betz to facilitate use on vehicles with a horizontal tailgate. Note is made that the holder of Steelman includes a mounting plate through which the screws 20, 21 extend (facing the viewer in figs. 4 and 5, cross sectionally shown in figs. 2 and 3).

***Allowable Subject Matter***

4. Claims 1 and 2 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

***Conclusion***

The remaining cited prior art is illustrative of the general state of the art.
